

## Winter MAP

Dear Parent:

During the month of January, your child will take tests called Measures of Academic Progress® (MAP®). We give students MAP tests to determine your child's instructional level and to measure academic growth throughout the school year, and from year to year in the areas of **Math, Reading, Language and Science (6-8) and Math, Reading, Language (9-10)**. Your child will take the tests on a computer or Chromebook.

MAP tests are unique in that they adapt to be appropriate for your child's level of learning. As a result, each student has the same opportunity to succeed and maintain a positive attitude toward testing. And with MAP tests, we can administer shorter tests and use less class time while still receiving detailed, accurate information about your child's growth. Following each testing period, you will receive a report showing your child's growth.

We are truly excited to begin a new era that focuses on every child's individual growth and achievement. **Partnering to help all kids learn**, parents and teachers can have a profound positive effect on the lives of our children.
